

PERIPHERAL NEUROPATHY TREATMENT PROTOCOL

Peripheral neuropathy management combines targeted nerve support supplements with prescription therapy to reduce tingling, burning, and nerve pain. Follow the daily schedule below consistently for optimal results.

- L-Acetyl Carnitine (1000 mg): Take 1 dose, 3 times a day.
- Alpha Lipoic Acid (300 mg): Take 1 dose, 2 times a day.
- Lyrica (75 mg): Take 1 tablet, 2 times a day.
